

# Total Solutions from Gmmco

Gmmco offers one-stop solutions to customers looking for mining, construction and road-laying machines, and engines of various capacities and for various applications.

**E**STABLISHED in 1967, Gmmco, a CK Birla group company, has been engaged in the sale and support of construction and mining equipment as well as engine power systems for over four decades now. Gmmco has the widest product offering for meeting the needs of customers in all sectors of the infrastructure industry. With over four decades of experience in the field and over 25 years of association with Caterpillar the world leader in machines and engines, Gmmco is well placed to take full advantage of the construction and infrastructural boom that India is experiencing today, and become the market leader.

**Wide range:** Gmmco markets and supports a wide range of Caterpillar machines and engines in south, central and western India. These products include dump trucks, wheel loaders, track type tractors (dozers), wheel dozers, hydrau-

lic excavators, motor graders, articulated dump trucks, track loaders, backhoe loaders, paving products like soil compactors, tandem compactors (asphalt rollers), asphalt pavers, cold planers (asphalt milling), and a complete range of gensets and engines for marine, petroleum and industrial applications.

**Rental and used equipment:** Gmmco offers clients machines and engines on rental basis or even as used machines. This offers customers the option of going for world-class equipment at a fraction of the cost of investing in equipment, a boon to small contractors and for short-term contract jobs, and major corporates wanting to outsource the equipment.

**World-class workshops:** Gmmco maintains state-of-the-art workshop and repair facilities across the country. Of these, the Nagpur workshop is one of the very few in the Asia-Pacific region to

be accredited with the 5-star contamination control certification by Caterpillar. This certification is awarded by Caterpillar after a rigorous audit to assess the levels of contamination in the workshop and the processes which are adopted to control the same. Gmmco also has 4-star certified workshop in Chennai and an SOS lab in Nagpur.

Gmmco's workshops ensure truly modern and cutting-edge services to customers in any maintenance tasks – be it in repair, rebuild or rehabilitation. Gmmco's Machine Rebuild Centre at Nagpur is one of the best in Asia Pacific Region. It is equipped to carry out bumper-to-bumper repairs of any type of machines as per Caterpillar procedures. And with contamina-

tion control standards in place, it ensures best-in-class quality and value for money for its valuable customers.

**Learning centre:** Gmmco's state-of-the-art 4-star learning centre at its Chennai facility ensures world-class training with the latest tools in the business. The centre includes four spacious classrooms, a unique lab facility for applied failure analysis (AFA), a multimedia lab, machine simulators, exclusive bays with adequate training aids for each system, viz, engine, electrical and electronics, hydraulics, power train, machines and engines for on-iron training.

**Gmmco Power:** Gmmco Power, a division of Gmmco, is a distributor for the wide range of Perkins engines in south, central and western India.

**SEM construction equipment:** Gmmco is the exclusive distributor for SEM China in south, central and western India. Under the arrangement, Gmmco currently brings SEM's 658C 5 Tonne (BSIII Compliant) wheel loader with complete support from its facilities. With SEM being a Caterpillar-owned company, Gmmco also provides sales and support for SEM construction equipment.

**Allied businesses:** Gmmco's allied business brings more of the world's leading machines and support equipment/services to make its offerings complete and comprehensive. Gmmco partners the following leaders as authorised representatives in its territory:

- Crushers and screens from Terex Finlay;
- Steel plant material handling equipment from Kress;
- Crawler cranes from Sennebogen;
- Piling rigs, hammers and powerpacks from Junttan;
- Construction technology solutions from Sitech;
- Heavy-duty tower cranes from Kroll;
- OTR tyres from Eurotire;
- Mining trucks from Daimler India Commercial.

**Comprehensive network:** The company has built up a robust infrastructure and an extensive network of offices operating on world class systems and processes to ensure that our customers receive only the very best attention that their world-class equipment deserves.

**The network includes:**

- Over a 100 establishments across the

country;

- 56 warehouses that stock over 86,000 line items of inventory worth over Rs 120 crore;
- An IT network connecting all the locations.

**One-stop solutions:** On the whole therefore, Gmmco offers 'one-stop solutions to customers looking for mining, construction and road-laying machines, and engines of various capacities and for various applications. Starting with advice and consultancy in choosing the right product, to round-the-clock on-site support, our business solutions include both new and used products, as well as rental options.

It is not surprising then, that Gmmco is a leading player in the infrastructure development activities in the country today, from the mining activities of Coal India to building highways across the country... truly "helping to build the India of tomorrow."
