

Kress Slag Pot Carriers

Kress slag pot carriers are available in a wide range of models and capacities up to 250 tons handling slag pots up to 1500 cu.ft. (42 cu.m.).

Each Kress carrier is custom-designed to handle a specific slag pot as well as accommodate the production requirements and dimensional limitations of each individual job site. The carriers are powered by standard Caterpillar power modules supported by the worldwide Caterpillar dealer network. The Kress deskulling system speeds removal of skulls without damage to the pot or carrier.
